

NEBRASKA FOREST PRODUCTS MANUFACTURERS

SECONDARY PROCESSORS—2011

This directory is a cooperative project between the Nebraska Forest Service and University of Nebraska–Lincoln Extension. It is published as a marketing aid for Nebraska’s forest products industry and was developed from a survey of all known secondary wood processors in Nebraska. Secondary wood processors are defined as businesses that manufacture wood products from lumber, partially manufactured logs, or wood byproducts resulting from other wood products manufacturing.

This directory is not comprehensive. Only businesses that request to be listed are included. For convenience, this directory is divided into a Business Index section, which lists business names under the appropriate Standard Industrial Classification (SIC) system product class, and a Business Descriptions section, which lists businesses alphabetically and includes product and contact information.

Endorsement of individuals or firms by the Nebraska Forest Service is not intended or implied. This directory will be periodically updated. Corrections and/or additions may be submitted to:

Nebraska Forest Service Marketing & Utilization Forester

102 Forestry Hall, PO Box 830815

Lincoln, NE 68583-0815.

402.472.5822 (phone)—402.472.2964 (fax)—dadams2@unl.edu (email)
